LEON SPRINGS, Tex., Oct. 24.—Troop A, First Separate Cavalry, District Cavalry, arrived here today and will remain four days practicing on the pistol range.

The cavalrymen established camp with small shelter tents which will be their homes until Friday, when they will return to Camp Wilson.

The eighteen mile march to Leon Springs was made in good time by Captain Washburn and his eighty cavalrymen. The trip was uneventful except that it was punctuated by continual fighting between the horses and men. Many of the militiamen were thrown but none were badly hurt. All of them stood the hike well and finished in good shape.

Excellent Experience.
Captain Washburn says the march furnished excellent experience for the men, and he believes the pistol practice while mounted will be beneficial.

Troop A was to have been accompanied to the range by the Wisconsin cavalry but all the members of that organization were held at Camp Wilson to testify against the 600 militiamen whom they arrested Sunday for trespassing.

While most of the District militiamen caught in the raid have been freed, the majors of the battalion finding them not guilty of intentional trespassing, a dozen or more pleaded guilty, and received light sentences. The non-commissioned officers were fined one day's pay, and the officers were confined to their quarters for four days.

The Third Regiment expects to be sent to the rifle range next week.

THIRD IS VICTORIOUS

The three battalions of the Third
defeated Camp Wilson against an
invading force last night, and repulsed
the attack. The Third and Fourth
Illinois Regiments also participated
in the night maneuvers which proved
interesting and beneficial.

General Farnham will review the District regiment as well as the other organizations in the second brigade Friday afternoon.

The commander of the Southern department has ordered brigade reviews held on the field near his headquarters at Fort Sam Houston every Tuesday and Friday.

The Second Kansas Infantry left Camp Wilson today for home, and the Second West Virginia Infantry, which has been camped in small tents, moved into the permanent quarters vacated by the Sunflower State boys.

Neutral Tints.

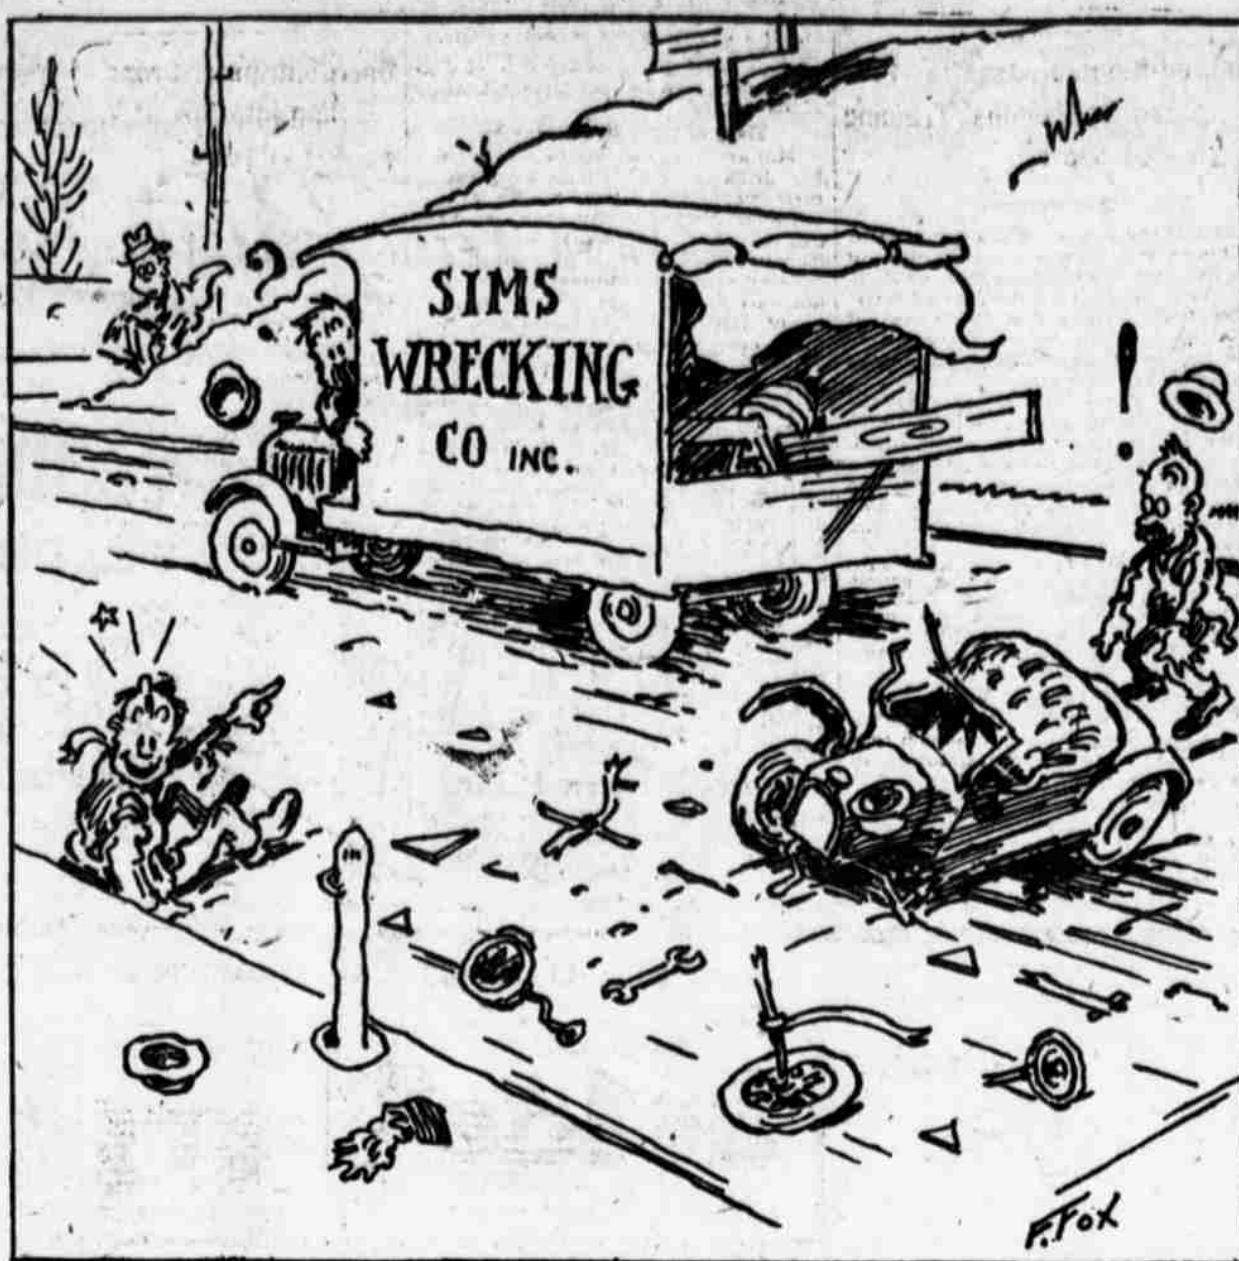

Vander—I thought your limousine was painted.

Asterwall—It was, but it has to be painted again. I ordered it to be finished in neutral colors, and the idiotic workmen painted it red, white and blue.

HORSES FURNISH PEP FOR DISTRICT TROOPS

Men Learning How to Ride So
They Won't Fall Off and
Frighten Steeds.

By Staff Correspondent.

CAMP WILSON, SAN ANTONIO (By Mail), Oct. 24.—The school of equitation for the officers, and men who must be mounted, has proved a sensation in camp.

There have been more varieties of plain and fancy and rough and ready riding than Buffalo Bill has ever exhibited. While most of the officers are making progress in mastering their steeds and the art of handling them, there are others, who, while not afraid of equines, have an overdeveloped sense of prudence.

After the first lesson, Capt. James H. Washburn, commanding Troop A, and volunteer instructor for the officers, said: "They will all be able to walk naturally again inside of a week. Some of them have had mantrappings constructed in their tents, and will stand for anything now, but after a few lessons they, as well as their steeds, will become bridle wise."

Four Months' Experience.
Colonel Young, Lieutenant Colonel Stephan, and Capt. E. W. Pullam, regimental adjutant, have had four months' practice on horseback having purchased their mounts before they went to Fort Myer. The other officers, including Maj. F. J. Hodgson, Maj. Wallace McCathran, Maj. Alexander Summers, Lieut. Earl Smithson, George Monagan, Francis Martin, the battalion adjutants, Maj. Charles R. Luce, and Lieutenants Gibbs and Foster, of the cavalry troop, have had their troubles training and learning to ride their rough gaired steeds.

Chaplain A. L. Smith and Capt. Herbert Bryson, the other two officers in the equitation school, are old hands at riding, and cavort around like cowboys, to the envy and admiration of their fellows.

With the officers everything is

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back; any reader suffering from urinary troubles, from kidney ills, should find comforting words in the following statement.

Carl E. Manglitz, 410 Virginia Ave. S. E., Washington, says: "For years I had pains in my back and bladder trouble and was in bad shape. The passages of the kidney secretions were irregular and caused distress and my back hurt me. Doctors' treatment and other medicines did me no good. I finally used Doan's Kidney Pills and in a short time they gave me relief in every way."

Mr. Manglitz gave the above account of his experience on December 3, 1912, and on November 30, 1915, he added: "I have just as much faith in Doan's Kidney Pills today as when I last recommended them. I endorse them at every opportunity, for they gave me great relief."

OFFICERS BELIEVE HOSPITAL UNIT MAY BE HELD IN SERVICE

No Definite Orders Have Been
Received and Men Are at
Armory.

SOME EXPECT FURTHER DUTY

Relatives Greeted Troop Train
as It Rolled Into Union Station
Last Night.

Whether they will be immediately

mustered out of the United States service, or be held for further service at the First street armory is a question in the minds of some officers of the Field Hospital Corps, which returned from the Mexican border last night.

"I firmly believe we will be held under orders at the First street armory," a captain of the unit said this morning. "and I am inclined to believe that within a short time we will be ordered back to the Mexican border. People here do not understand the situation which prevails down there. Things are at a crisis, and we received our orders to return to Washington before things reached that state."

The object in keeping us under orders at the armory is in order to have this unit ready to entrain for the border at a moment's notice. If we are mustered out, I don't believe a single man would be willing to re-enlist, and there would be a hard job in getting the organization back to strength."

May Go Back.
Although other officers of the organization would make no statement concerning whether or not they thought there would be further need for them on the border, it is understood among the men that such is the case, and orders may come for them to go back any time.

A misunderstanding of the orders as to where they would go after arriving in Washington kept the men of the Field Hospital Corps standing by their cars on the siding at Union Station until an early hour this afternoon.

Major Bowker, in command of the troop did not receive orders until this morning. The men went to their homes last night and reported at the station again early this morning.

Relatives on Hand.
A score or more of relatives and friends cheered a hearty welcome when the train bearing the field hospital unit rolled into a siding at the station late last night.

Before the train had even entered the tunnel to the south of the station, the militiamen were ready, and as it came to a stop, they fairly tumbled from the platforms, and casting military formations aside, rushed to waiting mothers, sweethearts, wives, and sisters.

Many of the waiting throng had first gone to Rosslyn, where the train was first expected.

Unit Among the First.
The Field Hospital unit was among the first troops to leave for the border. Major Bowker received for his command the congratulations extended by General Harvey for being the first troops to quit the mobilization camp near Fort Myer.

Sergeant C. W. Shurles was left in command of a detail required to guard the train the night before, and as it came to a stop, they fairly tumbled from the platforms, and casting military formations aside, rushed to waiting mothers, sweethearts, wives, and sisters.

The Field Hospital unit which returned from the border is composed of fifty-eight men, commanded by Major Bowker, Capt. W. B. Hudson, Capt. J. J. Hogan, Lieut. L. A. Felsen, and Lieut. H. T. Shawlette.

The troop strain consisted of two sleepers, one baggage car, two freight cars, and three flat cars.

**Colored Troops Now
Are Out of Service**

After a week spent in camp near Fort Myer, following their return from the Mexican border, the colored militiamen of the First Separate Battalion were mustered out of the United States service yesterday afternoon.

The troops left the old camp site, and under command of Major James E. Walker marched to the armory at Twelfth and U streets. They were there formally mustered out of the service by Major March B. Stewart, United States Army.

For the first time since June 22 there are no troops at the old camp near Fort Myer. There has been a small body of First Separate Battalion recruits, who are being trained at the Third Regiment for the border until yesterday.

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Dandruff at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.—Adv.

FOOD SOURING IN STOMACH CAUSES GAS, INDIGESTION

"Pape's Diapepsin" neutralizes acids in stomach and starts digestion.

Five minutes! No sourness, gas, heartburn, acidity or dyspepsia.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you feel gas and eructate sour, undigested food or have a feeling of distention, heartburn, fullness, nausea, bad taste in mouth and stomach, liver pill for biliousness or constipation.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin. They will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless, tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pill for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks as soon as they call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gas, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.—Adv.

Embarrassing Hairs Can Be Quickly Removed

(Beauty Culture.)

Hairs can be easily banished from the skin by this quick, painless method: Mix into a stiff paste some powdered talc and water, spread on hairy surface, and in 2 or 3 minutes rub off, wash the skin, and it will be free from hair or blemish. Excepting in very stubborn growths, one application is sufficient. To avoid disappointment, buy the talc in an original package.—Adv.
